# SPELLBOUND MAGIC MASHUP

Oxnard Performing Arts Center Corporation (OPAC) along with The House of MAGIC Foundation for the Arts are proud to present the second annual Spellbound Magic Mashup. This one-night show will bring some of the best names in magic to the stage for a fun-filled, family-friendly evening of magic and entertainment. Through this event, our nonprofits aim to raise funding for our programs that benefit the underserved, children at risk, and people with special needs.

We also aim to bring awareness that magic goes far beyond the stage when it comes to assisting, educating, and providing support in our communities. Magic can help in physical therapy by enhancing an individual's fine motor skills. Magic is a tool to help elementary school students retain important information about tolerance, social awareness, and safety in our communities. Magic can help with various disabilities to strengthen fine motor skills and cognitive challenges.

While other forms of art and entertainment are well represented in the County, magic is a rare, but truly special part of the performing arts. Both OPAC and House of Magic are dedicated to growing appreciation for this art form.

OXNARD PERFORMING ARTS CENTER is a 501(c)3 Charitable Organization located in Oxnard, California. OPAC is a cultural beacon and catalyst for advancing the arts, enhancing quality of life, and promoting cultural development within Ventura County and beyond. By serving as an incubator for creative innovation, and assuming a key role in strategic arts planning, OPAC continues to be a valuable, vibrant, and vital part of Oxnard's cultural life.

THE HOUSE OF MAGIC FOUNDATION is a 501(c)3 Charitable Organization located in Santa Paula, California. The House of MAGIC Foundation for the Arts was founded in the hearts and minds of James and Julie Lantiegne. Having personally experienced the impact the arts can have on an individual's development and the effect it has on society, they sought to create a center that not only provides an educational platform for the arts, but also provides a venue for people to perform or to be entertained. MAGIC is an acronym for Multi Arts Gallery & Instructional Center.

Many schools view the arts as a disposable part of our educational system. When budgets need to be cut, the arts are the first to feel the impact. Both OPAC and HOM have come together because we are very concerned that diminishing the arts will have a negative impact on our society, on future development, and on our Nation's culture. It is through the arts that we are inspired to create. It is through the arts that communities are brought together.
